 The Donkey Sanctuary

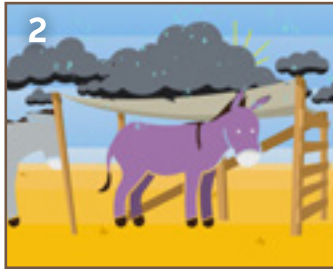

Follow the steps over the page, to make sure the animal isn't suffering.

CAN YOU BE CERTAIN THAT THIS ANIMAL IS NOT SUFFERING?

1. WATER

Do the animals have fresh water available and accessible?

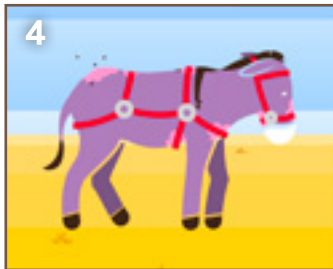

2. SHELTER

Is there shelter to protect animals from the sun or rain while they are resting?

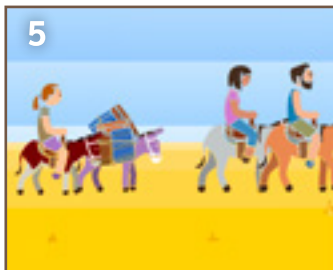

3. OWNER BEHAVIOUR

Is the owner or handler physically mistreating the animals?

4. WOUNDS

Are the animals free of any open wounds, or signs of injury? Is the equipment such as the saddle, harness or head collar causing harm?

5. WEIGHT

Are the animals being asked to carry an acceptable weight?

Put yourself 'in their hooves' — how would you feel working under the same conditions?

Can you be certain that this animal is not suffering?
