

Together, this is how we have supported animal victims of the fires in Attica

Including our own 1000€, raised a total of 5374€ in donations from our appeal, which has been paid directly to Dogs' Voice

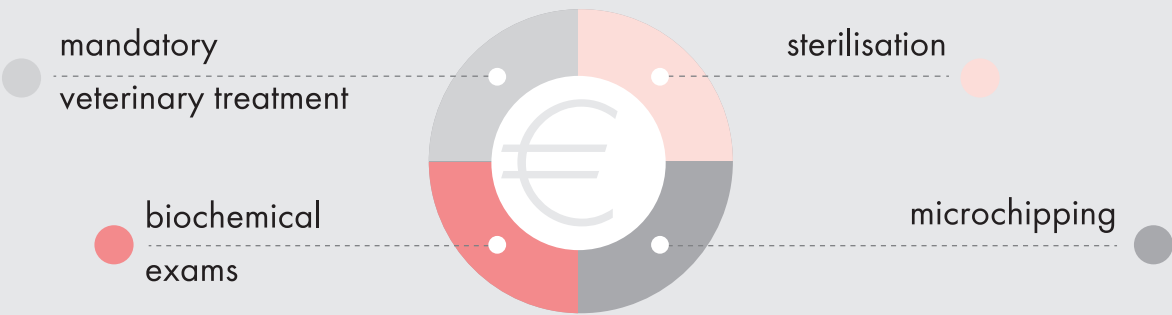

This was possible as over 100 donors from 14 countries kindly donated in just a few days

Collected 109 boxes of medicines, bandages and food for distribution to the vet clinics

Your support has contributed to the Dogs’ Voice rescue effort that has saved over 500 dogs and cats

The emergency response helped cover the costs of mandatory veterinary treatment, biochemical exams, sterilisation and microchipping in order for the animals to be able to get adopted
